

List of participants for ColdBeams 2017

Name, Affiliation, Country

Herman Batelaan, University of Nebraska-Lincoln, United States of America
Sven Bauerdick, Raith GmbH, Germany
Peter Baum, Max Planck Institute of Quantum Optics, Germany
Daniel Comparat, Laboratoire Aimé Cotton, France
Jaap Corstens, Eindhoven University of Technology, Netherlands
Marcel Drabbels, EPFL, Switzerland
Sabrina Eder, University of Bergen, Norway
Betty Eversdijk, Eindhoven University of Technology, Netherlands
Olena Fedchenko, Johannes Gutenberg-Universität, Germany
Christopher Foot, University of Oxford, United Kingdom
Jim Franssen, Eindhoven University of Technology, Netherlands
Francesco Fuso, University of Pisa, Italy
Jamie Gardner, National Institute of Standards and Technology, United States of America
Philipp Geppert, TU Kaiserslautern, Germany
Jacques Gierak, C2N-CNRS, France
Peter Gnauck, Carl Zeiss Microscopy, Germany
Yuval Greenzweig, Intel Israel (74), Israel
Thomas Grehl, ION-TOF GmbH, Germany
Karin Groot-Berning, University Kassel, Germany
Raphael Hahn, Laboratoire Aimé Cotton, France
Peter Hommelhoff, Friedrich-Alexander-Universität Erlangen-Nürnberg, Germany
David Jamieson, University of Melbourne, Australia
Mark Johnson, University of Manchester, United Kingdom
Tarun Johri, Eindhoven University of Technology, Netherlands
Michael Jones, University of Manchester, United Kingdom
Thomas Juffmann, Stanford University, United States of America
Erik Kieft, Thermo Fisher Scientific, Netherlands
Servaas Kokkelmans, Eindhoven University of Technology, Netherlands
Pieter Kramer, Laser 2000 Benelux, Netherlands
Pieter Kruit, Delft University of Technology, Netherlands
Colin Lopez, Laboratoire Aimé Cotton, France
Jom Luiten, Eindhoven University of Technology, Netherlands
Mostafa Maazouz, Thermo Fisher Scientific, United States of America
Jabez McClelland, National Institute of Standards and Technology, United States of America
Andrew McCulloch, University of Melbourne, Australia
Hans-Dieter Müllenmeister, Radiant Dyes GmbH, Germany
Pietro Musumeci, University of California at Los Angeles, United States of America
Peter Mutsaers, Eindhoven University of Technology, Netherlands
Kaoru Ohya, Tokushima University, Japan
Herwig Ott, University of Kaiserslautern, Germany
Yan Picard, Université Paris-Sud, France
Andrew Pratt, University of York, United Kingdom
Christoph Przeslakowski, MOGLabs Europe, Germany
Dominic Reed, Durham University, United Kingdom
Morgan Reveillard, Orsay Physics, France
Claus Ropers, University of Göttingen, Germany
Chad Rue, Thermo Fisher Scientific, United States of America

Cihan Sahin, TU Kaiserslautern, Germany
Ferdinand Schmidt-Kaler, QUANTUM, University of Mainz, Germany
Robert Scholten, University of Melbourne, Australia
Thomas Secker, Eindhoven University of Technology, Netherlands
Khashayar Shadman, Electron Optica, United States of America
Jasper Smits, Utrecht University, Netherlands
Ben Sparkes, University of Melbourne, Australia
Adam Steele, zeroK NanoTech Corporation, United States of America
Felix Stopp, University of Mainz, Germany
Duncan Tate, Colby College, United States of America
Gijs ten Haaf, Eindhoven University of Technology, Netherlands
Aaron Torok, Thermo Fisher Scientific, United States of America
Rudolf Tromp, IBM T.J. Watson Research Center, United States of America
Mark van Nihuijs, Eindhoven University of Technology, Netherlands
Jasper van Rens, Eindhoven University of Technology, Netherlands
Wilfried Vandervorst, IMEC, Belgium
Achim Vaut, Raith GmbH, Germany
Wouter Verhoeven, Eindhoven University of Technology, Netherlands
Matthieu Viteau, Orsay Physics, France
Edgar Vredembregt, Eindhoven University of Technology, Netherlands
Kevin Weatherill, Durham University, United Kingdom
Gerward Weppelman, Delft University of Technology, Netherlands
Tom Wirtz, Luxembourg Institute of Science and Technology, Luxembourg
Kent Wootton, SLAC National Accelerator Laboratory, United States of America
Steinar Wouters, Eindhoven University of Technology, Netherlands
